

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

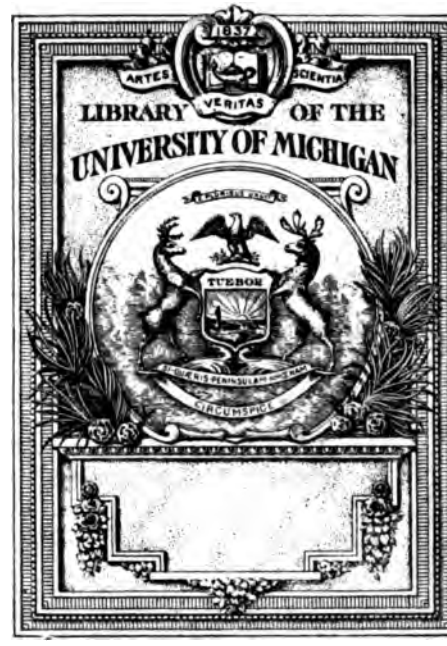

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

NOTE.—*The figures in this Table No. 7 give the amount of the actual* net receipts *derived from the Customs, Excise, Estate, &c., Duties, Stamps and Taxes; and do not therefore correspond exactly with the figures in Tables Nos. 2 and 4, which give the payments made into the Exchequer* "Exchequer Receipts," *on account of these duties in each year.*

† Exclusive of proportion of Duty carried to Local Taxation Accounts.

‡ Exclusive of proportion of Probate Duty collected for Local Authorities (*see* Table No. 12, p. 32).

¶ The amounts under the several schedules show the approximate produce of the Tax based on the assessments of property and income under each schedule.

†† Prior to 1894–5 all Death Duties were included under the general head of Stamps.

* This is the actual decline in the produce of the Stamp Duty on Marine Insurances for one year after the alteration of the Duty. It is quite possible, however, that the improvement in trade may have obscured in part the loss of the Budget concession.

† The amount mentioned in the Budget was 25,000*l.*, but that referred to the total repeal of the Licence which was not carried out.

* For the years 1882-3 to 1895-6 the full annual value of lands is given under Schedule B., but for the year 1896-7 only one-third of the annual value is given as provided by Act 59 Vict. c. 28, s. 26. Up to 1893-4 the profits from the occupation of farm lands were by law deemed to be equal to one-half the full annual value of the lands in England and Wales, and to one-third in Scotland and Ireland, and the duty was adjusted accordingly. For the years 1894-5 and 1895-6 a uniform rate of 3*d.* in the £ was charged for the United Kingdom (by Finance Act) as the equivalent of the 8*d.* rate charged under other schedules of the tax; but for the year 1896-7 the full rate of 8*d.* in the £ was charged.

NOTE.—More precise information having been obtained as to the receipts of Local Authorities for the year 1882-3, it was discovered that in previous years large sums received in respect of the sale of gas and water by Urban Sanitary Authorities had been returned as receipts from Rates. The figures for the year 1881-2 have been corrected as far as possible, and now show, as nearly as the accounts will allow, the receipts from Rates. Repayments to Local Authorities on account of private improvement works executed by them, and previously included as rates, have also been excluded.

* Including Urban District Councils from 1894-95. † For 1895-96, Rural District Councils. ‡ Exclusive of Rates levied under Burial Acts.

Note.—This Return includes Channel Island vessels, and, up to 1891, Foreign-going vessels belonging to the Isle of Man for which crews were engaged at Ports in the United Kingdom. From 1892 all Foreign-going vessels belonging to the Isle of Man are included.

The number of persons employed in the year is the sum of the number of persons forming the first crew of each vessel employed during the year.

The Home Trade includes vessels trading or going within the following limits, viz.: the United Kingdom, the Isle of Man, the Channel Islands, and the Continent of Europe between the River Elbe and Brest.

The Foreign Trade includes vessels trading or going beyond the above limits.

Some vessels known to be trading abroad are omitted from the Return, because no late information of the number of their crews could be obtained.

* The number of Patents actually sealed under the Act of 1883 during each year is given instead of the number of Patents sealed in respect of the applications of that year. This accounts for the small number sealed in 1884, the majority of the applications in that year having been sealed in 1885.

† The Patents, Designs and Trade Marks Act, 1883, which came into operation on the 1st January 1884, first provided for the registration of designs in sets.

† It will be observed that the net receipts brought to account in the year 1898-9, viz. - - - - £21,558,226
exceeded the Exchequer Receipts (*see* Table, No. 4, p. 13), viz. - - - - - - - - - 20,850,000

by no less than - 708,226

This large difference is due to abnormal Clearances during the last few days of 1898-99 on account of :—

	£
(*a*.) Tea, estimated at - - - - - - - - - - - -	100,000
(*b*.) Tobacco, estimated at - - - - - - - - - - -	610,000
Total - - -	710,000

Such clearances were made in anticipation of a possible increase of the duty on these articles. The amounts thus collected in 1898-99, which properly belonged to 1899-1900, were accordingly held over and not paid into the Exchequer until after 31st March 1899.

§ Exclusive of Local Taxation Licences collected for Local Authorities (*see* Table No. 13, p. 34-5).

Note.—*The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.*

* Amount not specifically mentioned in the Budget.

† This is the actual decline in the produce of the Stamp Duty on Marine Insurances for one year after the alteration of the Duty. It is quite possible, however, that the improvement in trade may have obscured in part the loss of the Budget concession.

* The number of Patents actually sealed under the Act of 1883 during each year is given, and not the number of Patents sealed in respect of the applications made in each year. This accounts for the small number sealed in 1884, the majority of the applications in that year having been sealed in 1885.

† The Patents, Designs and Trade Marks Act, 1883, which came into operation on the 1st January 1884, first provided for the registration of designs in sets.

† It will be observed that the net receipts brought to account in the year 1898-9, viz. £ 21,558,227
exceeded the Exchequer Receipts (*see* Table No. 4, p. 9), viz. 20,850,000

by no less than 708,227

This large difference is due to abnormal Clearances during the last few days of 1898-99 on account of :—

	£
(*a*.) Tea, estimated at	100,000
(*b*.) Tobacco, estimated at	610,000
Total	710,000

Such clearances were made in anticipation of a possible increase of the duty on these articles. The amounts thus collected in 1898-99, which properly belonged to 1899-1900, were accordingly held over and not paid into the Exchequer until after 31st March 1899.

* Exclusive of additional Beer and Spirit duties collected for Local Authorities (*see* Table No. 13, p. 30-1).
§ Exclusive of Local Taxation Licences collected for Local Authorities (*see* Table No. 13, p. 30-1).

* The amounts under the several schedules show the approximate produce of the Tax based on the assessments of property and income under each schedule.

NOTE.—*The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.*

* Amount not specifically mentioned in the Budget.

† This is the actual decline in the produce of the Stamp Duty on Marine Insurances for one year after the alteration of the Duty. It is quite possible, however, that the improvement in trade may have obscured in part the loss of the Budget concession.

‡ The amount mentioned in the Budget was 25,000*l.*, but that referred to the total repeal of the Licence which was not carried out.

Note.—*The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.*

* Including a small estimate of sums yet to be reported.

† The sums inserted here are equivalent to the gain in 1894-5 (shown in that year), when the duty was correspondingly increased. But notwithstanding the decrease of the rate of duty there was an increase of 19,661*l.*, in the Customs Revenue from Foreign Spirits, and of 334,000*l.* in the Excise Revenue from Spirits.

* In the years 1884-5 to 1895-6 the full annual value of lands is given under Schedule B., but from the year 1896-7 only one-third of the annual value is given as provided by Act 59 Vict. c. 28, s. 26. Up to 1893-4 the profits from the occupation of farm lands were by law deemed to be equal to one-half the full annual value of the lands in England and Wales, and to one-third in Scotland and Ireland, and the duty was adjusted accordingly. For the years 1894-5 and 1895-6 a uniform rate of 8*d.* in the £ was charged for the United Kingdom (by Finance Act) as the equivalent of the 8*d.* rate charged under other schedules of the tax; but from the year 1896-7 the full rate of duty in the £ was charged.

† Including in 1888, 28,821*l.*, in 1889, 56,731*l.*, in 1890, 54,637*l.*, in 1891, 55,977*l.*, in 1892, 47,239*l.*, in 1893, 48,387*l.*, in 1894, 229,665*l.*, in 1895, 208,728*l.*, in 1896, 189,975*l.*, in 1897, 59,575*l.*, and in 1898, 57,920*l.* annual value of land, the occupiers of which have elected to be assessed for their profits under the rules of Schedule D. (per Act 50 & 51 Vict. c. 15). This item has been excluded from the Gross Assessment in the year ended 5th April 1899.

‡ For the year ended 5th April 1893 and subsequent years, all Assessments on Interest of Municipal and Corporation Stocks are included under Schedule D., instead of being in part under Schedule C., and in part under Schedule D. as in former years.

§ Under Schedule E. certain items have been included for 1898-9, which though charged to Duty were not in former years classified with the Assessments. The Gross Assessments for these may be taken approximately at 2,000,000*l.*, and the Net Assessments (*see* Table No. 15) at 1,350,000*l.*

‡ On the 1st November in each year.

§ The decrease between 1898 and 1899 is due to the number of men called out in the latter part of 1899 for permanent service. The number so called out form part of the Regular Army, but the increase in the number of the Regular Army, shown in Table No. 109, does not correspond with the decrease shown in Table No. 110, because the average strength of the Regular Army for the year is shown and not the number at a given date, as in the case of the Army Reserve.

† It will be observed that the net receipts brought to account in the year 1898-9, viz. £ 21,558,227
exceeded the Exchequer Receipts (*see* Table No. 4, p. 9), viz. 20,850,000
by 708,227

This difference is due to abnormal Clearances during the last few days of 1898-99 on account of :—

	£
(*a*.) Tea, estimated at	100,000
(*b*.) Tobacco, estimated at	610,000
Total	710,000

Such clearances were made in anticipation of a possible increase of the duty on these articles. The amounts thus collected in 1898-99, which properly belonged to 1899-1900, were accordingly held over and not paid into the Exchequer until after 31st March 1899.

‡ Exclusive of additional Beer and Spirit duties collected for Local Authorities (*see* Table No. 13, p. 30-1).
§ Exclusive of Local Taxation Licences collected for Local Authorities (*see* Table No. 13, p. 30-1).

Hence the loss is not necessarily the measure of relief to the taxpayer.*

* Amount not specifically mentioned in the Budget.

† This is the actual decline in the produce of the Stamp Duty on Marine Insurances for one year after the alteration of the Duty. It is quite possible, however, that the improvement in trade may have obscured in part the loss of the Budget concession.

‡ The amount mentioned in the Budget was 25,000*l.*, but that referred to the total repeal of the Licence which was not carried out.

	TOTAL	12,252,000	14,152,000	13,997,947	§

NOTE.—*As an increase of duty may lead to a diminished consumption or use of the articles taxed, the gain to Revenue is not necessarily a measure of the burden of the increase on the taxpayer.*

* The duties on Tea, Tobacco, Spirits and Beer, which were increased in connection with the Budget of 1900-1, actually took effect as from the 6th March, 1900; but the problematical amount by which the increase affected the receipts during the last three weeks of 1899-1900 has been left out of account in this table.

* For the years 1884-5 to 1895-6 the full annual value of lands is given under Schedule B., but from the year 1896-7 only one-third of the annual value is given as provided by Act 59 & 60 Vict. c. 28, s. 20. For the years 1894-5 and 1895-6 a uniform rate of 3*d.* in the £ was charged for the United Kingdom (by Finance Act) as the equivalent of the 8*d.* rate charged under other schedules of the tax; but from the year 1896-7 the full rate of duty was charged.

§ The decrease between 1898 and 1899 is due to the number of men called out in the latter part of 1899 for permanent service. The number so called out form part of the Regular Army, but the increase in the number of the Regular Army, shown in Table No. 109, does not correspond with the decrease shown in Table No. 110, because the average strength of the Regular Army for the year is shown and not the number at a given date, as in the case of the Army Reserve.
